

Just as the name implies, the Dawg Deluxe adds a little "Deluxe" to our Dawg. Check out items such as brakes, forks, and shocks for upgrades that may catch your attention. We've thoughtfully changed the paint for you as well.

RACEFACE RIDE X-TYPE CRANKSET/BB • HAYES HFX-9 HYDRAULIC DISC BRAKES

Using the same time proven frame as the Dawg Supreme, the Dawg is a great way to justify getting one of those "if I can only get one bike" bikes into the garage. It's an awesome all around, all mountain, all trail, all day bike. Your other option is to strap a Freeride bike to your back as you ride your Cross Country bike up the hill...lame.

FOX FLOAT REAR SHOCK • HAYES SOLE HYDRAULIC DISC BRAKES • MAXXIS INNOVATOR 26 X 2.35 TIRES

Blending World Cup cross country DNA with top of the line Freeride capabilities, the Dawg Supreme delivers our premier Back Country option. This best of breed for one of our most popular bike platforms is back again this year with a new smattering of parts from the good people at Fox Racing, Race Face, and Shimano.

FOX FLOAT RLC 140MM TRAVEL FORK • FOX FLOAT RP23 REAR SHOCK • RACE FACE EVOLVE COCKPIT
 RACEFACE ATLAS X-TYPE CRANKSET/BB • SHIMANO DEORE XT DISC BRAKES/HUBS

Coming in only one solitary notch behind the ooooooh lala Dawg Supreme, our new Dawg Primo can carry it's own weight when it comes to a high end Back Country bike. There are days when large climbs up mountain passes are quickly followed by steep, nasty, loose descents. The trick is to be stoked with both.
