We view our kid's bikes as if we were a little rider ourselves. Would we want to ride 80lb. bikes with pictures of purple dinosaurs all over the down tube? No. Kona parents demand Kona design and innovation to help their kids become better cyclists. We even have research that shows that kids who ride Kona bikes don't do drugs, and stay in school....

Starting kids early on the sport of Cyclocross is good for everyone. The Jake 2-4 is a legitimate race bike for young up and comers. Switch to smooth tread and it's a great road bike too.
